

# SUMMER JOURNAL

## PHOTO IMAGING 5-6

This summer you are going to build some of the essential habits of a professional photographer including journaling. As you go about practicing your photography skills, take notes. You may decide to do research on some areas of photography or photographers that you admire; then take notes and try out the new picture taking. You will later print thumbnails of you best image(s) from each entry and attach them to the page. You need to complete a minimum of ten entries this summer, and you will continue to journal throughout the school year.

This will be due by the end of the first week of school for ten points per entry= 100 points.

Each one page entry must contain:

- Notes about what you were practicing
- Camera data (ISO, aperture, shutter speed, focus)
- Location, time, and date info.
- A thumbnail photo or two (about 2x2 inches big, black & white or color)
